Its taking advantage of a vulnerability to access tiktok accounts

Was someone selling this offsite? I remember seeing something like this on a competing forum, however it only worked on very specific accounts.

The vulnerability is not present on all accounts, it is on specific ones. I am not associated with anyone from another forum. This is exclusive to HF and I dont think other people have automated a big part of the process like I have

So this allows users to takeover any tiktok account? What do you have access to? are you able to post? view messages?

this doesnt let you take over ANY tiktok account, it allows you to take over vulnerable accounts. You will get full access and will be able to fully secure it

I should of asked the opposite of my question sorry, what would make an account un-exploitable by this method? like are verified tiktoks out of the question? accounts over a certain amount of followers? And what's the likelihood of this being patched in the near future? aka the next 2weeks or so?

Feel free to reply via DM's, Don't want to clogg up your sales thread with questions!

Lavish Living - February 14, 2021, 1:42 pm

Took this vouch copy for this.

He helped me set it all up, the method itself it pretty basic... but the automated tools he provides and the support he provides is very nice. If you want an automated way to possibly get some free stat tiktok accounts - this is a nice purchase.

You won't be able to target SPECIFIC accounts though... just gotta get lucky to get random accounts. I will post an update once I get an acc or two :)

Cheers and thanks [SocialMediaBooster](#)

Feel free to reply via DM's, Don't want to clogg up your sales thread with questions! dont worry about it my guy, your questions are all valid. Is there any type of accounts that is unexploitable? No all type of accounts can have the vulnerability verified and stat accounts included. this method is unpatchable :)

thank you op for the review :)

pushed a new update for the tools

Wolf. - February 15, 2021, 1:24 pm

I purchased this method, and the tools (silver package). I'm yet to try the tools so will update this when I have.

Like lavish says, the method is basic, but the tools will allow you to automate everything and get some decent results. I have no doubt this will work and look forward to trying this! I recommend this if your after a decent tiktok accounts and have a way of monetizing them.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
