Thread: [Full-access Cold War Account \(FRESH\) \(Standard Edition\)](#)

J???? - February 16, 2021, 9:30 pm

I have decided to offer my service of cheaper Cold War accounts to the HF community.

These are FRESH never used accounts that are legitimate and authentic.

You'll never lose the game (as long as you don't get banned for cheating or some chit)

You'll be able to change all of the account details, including registered email, password, display name, etc.

(Personal name can be switched only if you contact Blizzard support, but I doubt this will be a huge necessity to many of you.)

The price is \$45 USD, PayPal or CashApp only.

You can contact me here or via Discord if you're interested or have any questions.

You want \$45 to tell someone just to use a Russian or Argentina vpn so then they buy the game for cheap?

I'm not selling a method so I'd appreciate it if you'd stop sales trashing.

It's really sad that you got to bring your harassment from Discord all the way over here. Time to grow up, bud.

So your selling the account for \$45 when you can buy them at \$20 each on a Russian or Argentina VPN?

2,999 Argentine peso is equal to \$33.90 US Dollars (Standard Edition)..

2,799 Russian Ruble is equal to \$38.01 US Dollars (Standard Edition)..

Where in any of that is it \$20?

Again, stop sales trashing my threads just because you're salty and immature that you have competition.
