Description: A young boy and a girl with a magic crystal must race against pirates and foreign agents in a search for a legendary floating castle.

Directed By: Hayao Miyazaki (A legend)

Hard to believe this was made in the 80's. Beautiful animation, Vibrant Colors, Amazing storyline and

Heartwarming music (the end-credit music is one of my favorite!). There are a lot of hidden messages presented while watching this film!

Everyone should watch this beauty at least once in their life, you'll remember it for your lifetime. I will definitely be re-watching in the future.

If you have seen this movie and have more recommendations let me know!

Just added it to my watchlist looks fun to watch.

Some of the 80's shows are so great compared to modern shows.

I didn't realize this movie came out all the way back in 1986. I knew Miazaki movies were old but not that old lmao

I tried watching it a while ago but didn't really seem like it would be my thing, I may give it another try in the future though

The beginning made me not want to continue as well but as I gave it some time it progressed into a nice film.

Porco Rosso - Same director.
Great storyline.
Even better animation for its time.

I like it. I miss the old anime with such stories.

Literally anything from Ghibli films is a 10/10. Such nostalgia.

Give it at least 20 minutes before judging it haha , the beginning is kind of slow but it takes off mid film.
