Thread: [Every hour FREE BTC satoshi 5-20\\$/DAY Proff](#)

habizok10 - February 19, 2021, 6:53 pm

Hello,

I know a way to look for a little BTC satoshi. The secret is a "gambling" site. Not much after registration about 0.00000002-4 /hour, but if you can get people to register you can even 0.00000730+/hour or more. If u calculated, this 0.00017520 about 10\$ or more in one day for FREE.??

You need a single script to automatically get satoshi for all hours.

Step 1: Registration on the site:

Please write or sign the post and I will send the link and the proff.

Step 2: You need to download Tampermoney, if you use Chrome then here:

<https://chrome.google.com/webstore/detail...fkfo?hl=hu>

Step 3: Install this script to the Tampermoney addon.

<https://greasyfork.org/en/scripts/404112...nsole/code>

Step 4: Share your ref. link with your friends, make videos, make postes and use the script. If everything good, you make 50-100\$ in the first week.

On the site you can play the HI-LO game, if you manage to master a strategic strategy, you can still easily win. I will stick to this strategy.

Good luck!???
