Thread: [Choose Your Super Power](#)

Cap - February 21, 2021, 6:58 am

If you could have one super power, what would it be and why?

Personally, mine would be super speed so I could get to places quickly and efficiently. It's hard to pick a specific power, but I think that's what I would choose. What about you? Poll is open!

Grim - February 21, 2021, 8:12 am

Gotta say mind reading. Probably the most valuable one I'd say

Dopamine - February 21, 2021, 8:15 am

I would like to have the mind reading. No cap.

Killer - February 21, 2021, 8:30 am

Invisibility because when nobody can see you you can pretty much do anything and get away with it.

Forest - February 21, 2021, 9:02 am

Invisibility

Can go wherever I want, not be seen.

N - February 21, 2021, 9:45 am

Toss up between Mind Reading & Flying. I mean they both got good advantages.

Goku - February 21, 2021, 9:49 am

Read people's mind and get more depressed

Same here, for me invisibility is the best power! im already thinking of all girls i want to see naked hehe

SIM-4915037 - February 21, 2021, 9:55 am

I think it would be useful in my life to know how to control time

That's what I was thinking. Do I really want to know what are on people's minds?

To be honest I voted for it.

Besides, what doesn't kill you makes you stronger right :P

I think, over time, you'll get used by how people think and who knows, maybe, you'll discover a certain pattern whereby you learn to change their mind :D

ZeroOne - February 21, 2021, 10:13 am

I'd definitely pick invisibility over everything else. I think it's by far the best superpower anyone can have, just think of all the things you could do while you're invisible. Imagine typing on a keyboard in front of someone while you're invisible, they'd go crazy.

That's true, over time you may adapt and be able to block out what others are thinking or even manipulate their mind.

I definitely agree, invisibility is a great super power because you can literally do anything you want.

Bluntmeh - February 21, 2021, 10:37 am

This is hard for me to pick, but I'd have to say super speed or mind reading.

ghostboy - February 21, 2021, 11:20 am

I would definitely want the invisibility. nothing else please :)

Utility - February 21, 2021, 1:17 pm

If super speed is and would be the same as The Flashes super speed, I choose that.
That shit is busted.

Malthemar - February 21, 2021, 1:18 pm

Invisibility.

It is the most practical, in my opinion.

To be invisible or fly probably or immortality. It is hard to pick one.

Proof - February 21, 2021, 1:30 pm

I'll take that Jean Grey from X-Men. She's OP-- had to go under Other.

Snowwy - February 21, 2021, 4:25 pm

I would say mind reading or invisibility.

365SENDER - February 21, 2021, 4:26 pm

Who's mind would you read first?

NoneStar - February 21, 2021, 7:40 pm

Mind reading would be fun, imagine calling people out with the exact thoughts their thinking. xD

Yanix - February 21, 2021, 8:38 pm

Invisibility seems to be much more likely...it can gives you all the time to do anything you want
wherever and whenever :D

Doomslayer - February 22, 2021, 2:16 am

Everyone choosing invisibility is a creep Imfao

Miles Teller - February 22, 2021, 2:25 am

If I had a super power I would want it to be that I could think of anything in the world and pull it out of
my pocket. Want \$1MM? Boom pull it out your pocket. Want the keys to a ferrari? Boom pull it out
your pocket. Want the cure to cancer? Boom pull it out your pocket

jecoylecroy - February 22, 2021, 2:28 am

Invisible would be great because I can go anywhere unnoticed.

Koyote - February 22, 2021, 6:37 am

Invisibility. I'll stand behind Musk as he types in his private keys, then I'll take his bitcoin lol.

TobiTee - February 22, 2021, 7:25 am

Having the powers to be invisible would be naughty for a number of reasons! ???

Koyote - February 22, 2021, 8:53 am

Mind reading would be fun at first, but would get awful when you realise what people really think of
you, or how strangers view you as they walk past. I'd like to know every now and then, but knowing
all the time would be so depressing. I'd just have to be able to switch it on or off, having those voices
in your head constantly would be insanity.

Juoku - February 22, 2021, 1:40 pm

I chose Other because if I had the option to choose whatever I want it'll be the full control over time and space, pretty OP lol, but if I had to only choose something small like laser from the eyes, flying n such it'll be teleportation

Yin Yang - February 22, 2021, 1:48 pm

I would go with mind reading which acan open many doors.

Lyrlei - February 22, 2021, 7:30 pm

Mind reading seems super fun and very low profile, I chose mind reading but my top 3 would be,

1. Mind Reading
2. Super Strength
3. Super Speed

Ninja™ - February 22, 2021, 7:54 pm

I would definitely want the mind reading power.

oRequiem - February 22, 2021, 9:30 pm

Gotta go with mind reading, would for sure help in the future.

Skisuit - February 22, 2021, 10:11 pm

Might sounds silly, but I'll love to be able to teleport. That way, I can save a lot of money on transportation!

Bodega - February 23, 2021, 2:58 pm

Invisibility, don't even need to explain why. Literally be set for life, and if someone comes looking for me, welp, good luck cause I'll be that guy holding a corona with lime mid air. Plus I can fuck with people and who wouldn't?

Koyote - February 23, 2021, 3:00 pm

I'd still take invisibility, because it could accomplish the same thing, but walking through walls would be fun so I could just jump in a vault and take some gold or cash as I need along the way lol.

Splixxy - February 23, 2021, 4:04 pm

Not on here, but being able to go back in time like a rewind button.

If you mess something up, you can go back and it's like nothing ever happened.

ingenious - February 23, 2021, 9:55 pm

Mind reading would be intellectually very cool

?ystem - February 24, 2021, 1:26 pm

I've probably spent a shameful amount of time over my life over which superpower I wished I had, but the easy decision for me was and forever will always be teleportation.

Hahaha that sums up my life too. Have you seen Jumper?

Blogger - February 24, 2021, 3:24 pm

Wow. That's freaking hard. I didn't think it would be difficult to choose. Let's figure it out together. lol I know I'm going to veto super speed because I'll just run, if anything.

I'm pretty strong already and strength won't stop weapons, so I'll say no to that, too.

Walking through walls would be cool but if I'm invisible, I can use a door or window discreetly and fly under the radar, so I'll knock that one off of my list.

That leaves us with mind reading, invisibility and flying. I won't bother with "other" because I'm already having a difficult time choosing and I think the above super powers are top tier anyway.

I'll get rid of flying because if I'm invisible, I can catch a ride on anything for free and fly under the radar.

Now it's between mind reading and invisibility.

Mind reading would only really work to my benefit if I'm asking the right questions. Otherwise, I'll just be left reading nonsensical thoughts.

With all of that being said, it looks like invisibility takes the cake and I'm cool with that. Voted.

ilcaneee - March 7, 2021, 3:48 am

I would choose immortality and be able to make other people immortal!

Verethragna - March 7, 2021, 12:22 pm

Flying.

Why? Let me explain here below with some humour included. Do not take this too seriously, please.

< Reading people's mind will not get you far, as most people even deny their own truths.

< Being invisible is cool, but in a world of people addicted to their phones, you are most likely not being seen right now anyways.

< Super speed sounds amazing, but I already can finish within 2 minutes.. That's fast enough for me!

< Walk through walls, could be useful, but when drunk or high I'd run to my neighbours or in a pizzeria too quick. I wouldn't be able to hold my urges to snack when having the munchies.

So my ability of choice is; Fly.

Lol good one. I liked the "Walk through walls" explanation?? Here is my reply to your choice:

< Flying is great but this will be a very obvious superpower and you'll be easily tracked both by people and some military tech.

You got me there!

I wouldn't really fly outside like a bird, as I think too many people would be either jealous or afraid and try to shoot me like some unwanted pigeon on their fence.
I would fly at home, like being 'high' while being high.
Float in the living room or just hover above my couch while my girl vacuums the floor. Stuff like that really!

How about you pick the invisible thing, I'll pick the fly.
You'll hold a broom in your hands and I'll fly on it. That way people think I'm a Witch, while we're both just lucky struck by Chernobyl's powers.

Basically he can manipulate any and every vector that touches him, so anything that can be quantified as vectors (velocity, electricity, heat transfer, radiation, light, etc.) he can change it as he wishes. Default setting he uses is "reflect"

So technically using this ability you can fly, change weather, move buildings, be invisible, and

potentially much more.
