Big news in the rap world. Pretty unexpected too, I thought he wasn't being released until 2022 at the earliest.

Albert - February 22, 2021, 5:14 am

About time he got released, glad he's out

Koyote - February 22, 2021, 5:27 am

Wasn't expecting his release this early! I always felt bad for him, let down by his people and his label, made out to be a scapegoat and was clowned around in the industry despite making some people a lot of money. Hope he turns his life around and gets back on top.

Maaaaaaan , I've been waiting for this moment ! Bobby is FIREEE ! Waiting for the hit . I am pretty sure he will throw something huge !

Well I guess you got banned for something but yeah it was a long time considering he didn't really do any major crimes he just refused to talk.

Yeah he served 7 years in total. So far he hasn't said anything since his release. I'm sure he'll release music soon.

You mean "fire ball" cause its not a titel of a song . I just described his hits :D

Forensic - March 6, 2021, 6:20 am

Whats your fav Bobby song?

rsx - March 6, 2021, 6:21 am

He stayed real, didn't snitch, took an extra 6 years so his boy could split it with him. Rowdy ended up getting out before him too. Shmurda is a real one.

Homie held it down and didn't snitch, took the deal that got rodwy less time too I believe, he a real one. His née chain looks dumb imo though but as long as he likes it he's got money to blow, hope he stays outta trouble and makes the best of his second chance

I feel you but at the end of the day he spent 7 years of his life in his prime behind bars. That's good hurt in a way. He should have wrote some good lyrics in there though.

Loyalty !!! If you want to be a ganster you can't be afraid to spend time behind the bars ! I am sure that he has wrote something HUMONGOUS in the prison . We are now patiently waiting to hear it !!
