Thread: [Favourite kind of pizza?](#)

Koyote - February 24, 2021, 2:48 pm

My go to is a spicy pepperoni with jalapeños and a cheese stuffed crust, but the other week I found out the local pizza place does a super meat one, and it has beef, pork, chicken, duck, turkey, lamb, and different salamis and chorizos, then a stuffed crust with cheese and sausage meat. I'm yet to try it, but it sounds like it's gonna be an insane amount of protein lol. What's your favourite?

Utility - February 24, 2021, 2:53 pm

White pizza with spinach is my favorite by far.

Yanix - February 24, 2021, 6:39 pm

My favorite are the thin crust pizza...Hawaiian and Pepperoni :D

Deany - February 24, 2021, 6:42 pm

I just get beef and pepperoni with mine
Nice and simple

Forest - February 25, 2021, 12:21 am

I love making my own at home, usually very meaty.

Includes: Tuna, beef, ham, mushrooms

Bluntmeh - February 25, 2021, 1:05 am

My favorite are thin crust pizza and barbeque chicken.

Blogger - February 25, 2021, 2:01 am

My favourite pizza to get is a hand tossed pizza with bbq sauce instead of marinara with pineapples and onion.

I used to be deep pan all the way but recently, probably because I'm trying to lose weight, I'm going thin crust all the way lol

Oh nice! I have to be in the right mood for bbq sauce instead of tomato because it's so sweet at some places, but I do like it

If you have a Pizza Hut around you, they do it nicely.

The closest one closed down midway through last year :(we have a local place that's pretty decent, but sometimes you'll get a pizza that's clearly been cooked a few hours before and just greased up and reheated again, and that tends to put me off for a while. I think the next nearest Pizza Hut to me is 15 miles away and technically in the next county so I would be in trouble if I got caught there at the moment lol.

Haha yep! As soon as the limits are lifted, I'm going to Pizza Hut lol. I just really miss that whole dining in experience, and sitting in a booth excited for your food while everyone's around you :(

Usually it's deep fried before it's put on pizza, which kind of fixes the texture issue haha.

Ohhh okay that was dumb of me not to even consider that haha. Okay so I don't usually like gherkins or pickles straight up, but deep fried I can get on that, so now I'm thinking it's gotta be a similar kinda deal overall...

Bro one day trap one of those wolves and make a wolf pizza lol

Lyrlei - February 25, 2021, 3:09 am

Hawaiian and pepperoni for me, most common ones here, after all.

Haha much harder to trap a wolf in one of those, you have to bow them down.

I might try this next time, however I will have to freeze and store it whilst im hunting

Haha yeah I imagine that must be an intense experience too. Out of curiosity, what other animals are there around that you could hunt? Could you do like a hunter's pizza in the way you get those hunter's pies or meals?

HOMODIN - February 25, 2021, 3:18 am

Most will most likely see this as weird but...

1. Salami, ham, olive and champion (shrooms)
2. Salami, ham, olive and pineapple

No I love the sounds of those! Many many years ago I was in Spain and they did a pizza like the first you said, but also with mozzarella and it was sooo nice. Real mediterranean style stuff, so good.

Mozarella is a nice addition to that indeed. There's this local pizza place that I always go to, the people there know me so they just start working on my pizza before I even order. I have actually for a few other to order the same as me and I would like to sneak the pizza to their menu somehow :P

Hahaha I have that with a Chinese place here, as soon as I walk in they go "we know, we're on it". Oh bro you should do what we did with our chicken place at uni, we had them do like a custom thing once of friend chicken in a kebab meat and pitta wrap that was also fried (super unhealthy) but we basically redesigned their menu and added what we called the death wrap at the uni and printed it then put it in the place, so people kept saying "can we have the death wrap" and it eventually became the official menu lol. I can't imagine they still do it, it was probably diabetes in a bite, but it was one of those things you can eat in your early twenties and feel good about

Big Tyrone - February 25, 2021, 5:07 am

Ham or pepperoni type of guy

Wow, that's quite the combination lol. My first word was actually pizza ? I'm a simple individual tho. I like pepperoni with a hand-tossed or thin crust preferably with some type of garlic sauce glaze. Unfortunately, I haven't had it in a while ? lol
