And if updates are applied that make the tool invalid, and someone is a lifetime member, can they

expect the tool to be upgraded?

Any idea on the detection rate? Might scoop up a 1 day copy to help some friends out, I assume detection rate is totally based on how high we set the multipliers and how fast we actually end up getting the camos/etc?

Camos is fully undetected as well as weapon XP, Level XP on the other hand on the old maps will last 10 mins up to 3-4 days depending on the account and its age stats etc, Other then that you can use the new map fully undetected XP method which my discord tells how to do on it, Can even use the free game week to do it.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page
and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP
(Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for
each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first
post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

Stanley

Prices have been updated.

Slim - May 14, 2021, 6:07 pm

But what is the ban rate? By full lobby do you mean that it only works on a full local?

-PUBG- - May 14, 2021, 9:15 pm

(May 14, 2021 06:07 PM)Slim Wrote: [\[CITE\]](#) But what is the ban rate? By full lobby do you mean that it only works on a full local?

Since Season 3 it has been finicky, You can last 3 weeks, Get a ban, Get banned in 2 hrs, Get another and last a month, Its been random for every tool out as of right now.

Flakes - July 14, 2021, 7:25 pm

How can I purchase it? Also is there a discord for the tool, and is it online/still supported?
