What is this service ?

This service will allow you to transfer your Instagram Username to your Main account OR to a Fresh account.

How does it work?

- You provide the login credentials.
- You pay the agreed fee.
- I swap the username and send you the login credentials.
- You login and confirm.

Fees: There is no minimum fee (so it's the cheapest swap service on site)

Fresh Swap: 10% of the username's value.

Main Swap: 15% of the username's value.

Payment methods: BTC / Instagram handles

Terms of Service:

- 1- All swaps are a risk, but I will ensure my best to successfully swap your handle
- 2- In the case of a loss, Only the service fee will be reimbursed
- 3- If you attempt to lie or deceive me into having you steal another users handle, the fee will not be refunded
- 4- I will not take any responsibility of what happens to the username or the email once it is in your hands
- 5- I'll not swap handles that have been obtained illegitimately.

Note: All my swaps are recorded from A to Z to make sure there isn't any kind of cheating or scamming.
