Thread: [Paying 20 dollars for someone to do my php, html, css homework.](#)

?nder - March 1, 2021, 11:50 am

If you are interested send me a message and I will send you a link of the project (Which is just make a basic quiz page coded in php and html and include some features like grading and making sure all the questions are answered.) that needs to be completed. You must completed the project as dictated by the instructions and make the website look okay doesn't have to be beautiful just simple.

You must completed the project as dictated by the instructions and make the website look okay doesn't have to be beautiful just simple.

I'm interested to take this job.

Send me message with more details, please.

Thanks
