Thread: [\[FREE & LEGIT\] EARN \\$20-\\$50 A MONTH, PASSIVE AUTOPILOT INCOME FOREVER \(USD + BITCOIN\)](#)

Envy - March 1, 2021, 12:54 pm

Earn \$20-\$50 a Month, Passively (Auto-Pilot)

At the expense of your computers resources (minor bandwidth and gpu usage)

Introduction

I've created a basic guide to earning \$20-50 a month passively. This method is SAFE and completely autopilot, zero knowledge is necessary, and the setup is basically instantaneous. You will begin earning right away, and see a nice chunk of earnings within just only 2-3 days, maximized by the month. I have been personally doing this same method for 3 months and have earned just under \$200.00 and 70% of that being in BTC assets. This guide was created by me, intended to be my first original content posted on HackForums. It will be free forever, as it is just a basic document - but the end result will be making you money, "set and forget". These days, I'm doing everything and anything to stay afloat and survive, and I hope this guide helps you - even if it's just a little.

Requirements

None. I just want to help the people of our forum, all are welcome.

Please Quick Love the thread and make a quick post, I will PM you with a copy.
