Proof Of Earnings

So What's it All About?

This guide will teach you step-by-step, how to start earning easy income, passively! There is 46 pages of in-depth original content! This is my own personal unique method, no recycled content at all. This is my main method! I generally make \$2000-4000 a month depending on the time of year and luck, it's actually pretty easy! Just a little outside-the-box thinking.

I can guarantee if you follow the guide you WILL start earning, if you're lazy don't expect to make the full \$3000+/Month. I teach you exactly what I do to earn that much, it's up to you to do it! If you purchased a Premium edition feel free to PM me as it includes 1 on 1 Mentoring & Lifetime Updates, I'm here to help!

(Apr 26, 2021 02:24 PM)bilbo22 Wrote: [\[CITE\]](#) I purchased this back in March and have been actively putting this method to use, really happy to say that I've been exceptionally successful. This isn't to say I've been sitting back and watching the money roll in lol, it is actually quite a bit of work especially setting up and getting to the point where all you need is 'maintenance'.

It really isn't hard work once everything is set up as long as you're consistent. Personally I wouldn't call this 99% autopilot but it will make you money if you're willing to put in a few hours a week.

The guide itself is very detailed and straightforward as many have already pointed out, the only flaw if I had to nitpick would be that some aspects lack clarity while other parts feel a little overstated (definitely with good reason however) so there's room for refinement. I read through it 2-3 times and got right into it. I was a little skeptical before buying since OP is relatively new on HF but he has gone above and beyond to address any questions I had.

This is my total revenue from when I started last month. It isn't \$2k/month but if I put more time into it I don't doubt I could easily get there. Bottom line, this is the most consistent money making method I've seen on here.

OP provided you with tools you can buy to automate this whole process. The tools op recommended are 25\$ total; which is pretty cheap to get the ball rolling faster. Even after I completed the contract OP still talks to me to help me with any question I have and helps me along the way. Looking on this forum I have seen people offering the same type of service for 500 - 1k+. I cant vouch which is better but you dont really need more after buying this method. This is honestly a method that can replace your day job with due time. I cant vouch high enough for SwagDad. You guys better hop on this before he realizes how much he should be charging for this. (Mar 2, 2021 02:11 PM)The G Factor Wrote: [\[CITE\]](#) OP has given me this method as a vouch copy. I can only say one thing: it's incredible and relies on a pretty smart, emotional trick.

The headline should be "so under-saturated that you're in DEMAND", that totally describes the situation at hand.

It's a HUGE market and as far as I see it, only a couple of people are smart enough to do it right now.

As a bonus, I don't think it's that easy to saturate as there are numerous small variations and changes you can make.

You could probably earn a lot more than \$1000 per week through experimenting and harder work

IMO.

Lastly, if you do buy this book and don't earn anything with it after hard work, feel free to give me negative rep. When I vouch, I vouch.

Overall:

Overall this method will definitely make you money with the minor investment as listed in original thread. How much money you make will be determined by how much effort you put into this niche but it is a solid method guaranteed to make you profit if you follow all the instructions properly.

Pros:Guaranteed to make money (Profit depends on how hard you work)

Very well explained tutorial with images for visual learners.

Method does not have to be 100% followed to make profit , you may tweak it to your likings and still make gains.

Cons:This method requires some initial investment as noted.

Could be a good or bad method depending on how you set it up, I recommend following instructions & reading carefully beforehand

The amount of profit you make is based off the amount of work you initially put in

Overall rating 8/10 - This is guaranteed to make money with work put in. You will make more than what this ebook cost.

(Mar 2, 2021 10:55 PM)Artisan Wrote: [\[CITE\]](#) OP was kind enough to give me a vouch copy so lemme jump straight into it.

I was already familiar with the method but I did not know about the specific platform used by the OP. That being said, this is one of the most detailed guides/ebooks I've seen about this method. In the guide, OP goes into detail about the platform, setting up, automation, scaling, navigating through any bumps you may face. The guide is given in a step by step format with images so that will be really useful for beginner level members who are taking their first steps toward earning online.

Please note that this is not a set and forget kind of method and I don't think any such method exists. You will have to put in minimal effort even after you automate things and a small amount of starting capital will also take you a long way (its not mandatory). Compared to the ewhoring or CPA guides that flood the marketplace, this one is a gem. The 2000+ /month might seem too good to be true at first but if you work toward it, I think its very much achievable and Ive seen people rake in significantly more money using this method.

For any further queries regarding this guide/ebook, please contact OP directly.

No, cash out means how long after earning money do you actually get it. Every time you earn you get sent the funds instantly.

You can start making money the same day you read the guide, but there is an initial set up time. I'd

say around ~2 hours. You can spend more time if you so choose, or less if your lazy.

I apologize in advance if some questions are already answered in your original post.

1. Does it work worldwide?
2. How often is the payout?
3. Are we getting payout from people or company?
4. How much have you earned so far?
5. How much time is needed for the setup?
6. Is it possible to get saturated?
7. Is it scalable?
8. Is it possible to automate?
9. What device is needed to make this up and running?
10. How much daily maintenance time is needed per day?
11. Are we exploiting a website?
12. Is it whitehat or blackhat?
13. Did you discover it yourself?
14. How long have you been using it?

1. Yes
2. Paid instantly whenever you sell.
3. Sort of both
4. ~40,000
5. I'd say 2 hours recommended, but you can spend much more or less, it's up to you.
6. Technically yeah, anything can. It's extremely unlikely and there's always small changes you can make to add your own twist, so I don't see it getting saturated at all.
7. Yes.
8. Yes, 99% automated like the title says.
9. PC & Mobile.
10. Per day, less than an hour. But you can spend as much time as you'd like.
11. No exploits, it's nothing blackhat, but it is a cool method.
12. 100% Whitehat.
13. Yes, discovered myself.
14. Over a year.

can you setup the method for us?

You need to setup for the automation. Once it gets going it's 99% automated. No I will not set it up for you. The method explains step by step how to do everything, from beginning to end.

Sorry, but I won't set it up. If you can't spend the 2 hours setting it up I wouldn't recommend this method for you as it requires a little bit of work & maintenance afterwards too.

Mostly for the setup, just like anything else to get to automation you have to put in the work first. And maintenance is needed but it's less than a few hours a week.

I've had this for a while and here goes. Method itself in general is very much known to the public however the approach is unique as well as where it is applied. Never heard of that before. Seems to have potential but I've quite frankly failed to generate a dollar with it. Tried different 'strategies' and ways to increase my chances of profitability with no success. When it comes to the money back guarantee I was told that I am not actively trying which I actually have (by changing 'approach/strategy') but oh well kind of expected that.

Hey :) If I recall correctly when you messaged me you only tried once, and when I checked up on your page it looked the same since when it was created. If you need help with it you can message me on discord!!

Snoopy - April 26, 2021, 2:24 pm

I purchased this back in March and have been actively putting this method to use, really happy to say that I've been exceptionally successful. This isn't to say I've been sitting back and watching the money roll in lol, it is actually quite a bit of work especially setting up and getting to the point where all you need is 'maintenance'.

It really isn't hard work once everything is set up as long as you're consistent. Personally I wouldn't call this 99% autopilot but it will make you money if you're willing to put in a few hours a week.

The guide itself is very detailed and straightforward as many have already pointed out, the only flaw if I had to nitpick would be that some aspects lack clarity while other parts feel a little overstated (definitely with good reason however) so there's room for refinement. I read through it 2-3 times and got right into it. I was a little skeptical before buying since OP is relatively new on HF but he has gone above and beyond to address any questions I had.

This is my total revenue from when I started last month. It isn't \$2k/month but if I put more time into it I don't doubt I could easily get there. Bottom line, this is the most consistent money making method I've seen on here.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump.
