Thread: [\[#1\] YouTube Automation Tool | MAKE EASY MONEY ON YOUTUBE! | TikTok Compilations](#)

PunchMan - March 2, 2021, 12:38 pm

WHAT MAKES US DIFFERENT FROM THE OTHER TOOLS?

Unlike the other tools that are priced very low, our tool isn't coded in python and you can easily run it on your computer!

Our tool isn't skidded from github and UNLIKE WITH OTHER SELLERS

you receive FULL GUIDANCE to success from people that HAVE succeeded and ARE crushing the YouTube market! (our team)

Unlike others, we give you actual methods how to make money using our tool on the FIRST DAY OF BUYING IT!

Stop waiting months to start making money, take action now!

And at last, if you are buying a cheaper alternative and copy of our tool, good luck.

Because the TikTok Compilation niche is NOT monetizable on YouTube and without all of our methods and our guidance you're basically wasting money and time

buying tools from different sellers that won't update their tools and won't help you out.

GUI WILL BE ADDED SOON WITH AN IN-BUILT EDITOR THAT LETS YOU CHOOSE WHICH CLIPS YOU WANT AND DON'T WANT

VOUCH: (Mar 8, 2021 09:18 AM)Caligio Wrote: [\[CITE\]](#) I was given the opportunity to review this product by "[PunchMan](#)". First of all, I would like to thank him for this opportunity.

I do need to add the fact that the user seems to be proxy selling this product on behalf of a team of two other people. After being granted a chance to review this product I was added to the Discord server where the initial license granting took place. Both of the guys that are involved in the development of this bot seemed really nice and helpful.

After I was granted the license and was able to download the bot itself - I ran into problems where I could not run it properly, and although it was early in the morning one of the devs gladly joined me in a TeamViewer session and fixed in the matter of a couple of minutes. This fact alone should boost the rating for the support department of the product.

Now let's get to the point. The bot is extremely simple to use, as the pictures in the thread show - you can choose by which category you would like to create a video from, and afterward, you are asked how many clips would you like to use.

I created a total of 5 videos, one was by trending and the rest were using some random hashtags.

The average creation time of a single video that consists of 25 clips took around 13 minutes. When it comes to the videos themselves, the trending one was the one I liked the least, probably due to

the fact that the TikToks trending at that moment was not that good (for my liking).

However, when I created videos using #meme and #funny I was more than pleasantly surprised due to the fact that after seeing countless of these compilations on youtube, the ones that the bot made actually made me laugh.

There are two things I would have liked the bot to do:

1. Input a custom background for the video (that fills the black space) - but I was told that this is being implemented.
2. BULK creating videos, at the time you can create a single video each time.

You also do receive a guide on how you can make some money with this. The initial .pdf was not TikTok-themed but did give you some ideas on how you can monetize the niche, but also they sent 3 ways in chat on what you can do with this. It's nothing crazy out of the box, but I'm pretty sure you can profit off that.

If I wouldn't get my license revoked after the initial vouch - I would try two of the methods provided and update this review further.

Overall I do think that this product is worth the investment, especially if you are looking to set your foot in the field of YouTube Cash Cows, making something simple is a good way to familiarize yourself with the industry and this product doesn't cost a fortune for what it can bring back.

Once again I would like to thank the OP for letting me review this!

Good luck with sales!

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I despise people who are using fake advertisements to promote their products.

So that is the reason. I would not sell something and then show earnings that is not even doable on

the actual thread.

You literally have "PAYMENT PROOF" above the YOUTUBE ANALYTICS w. PAYMENT in it and then on page 1 of this thread, you are saying, you are not monetizing via youtube, that is false advertisement bro.

Happy that you could admit it, so everyone can see it on your thread.

You can report all you want, you are the one wasting admins time, I have every right to ask questions and to let people know that you have Youtube earnings in your sales thread, when you are also admitting, that you wont be able to monetize the Youtube channel xD

Also, you are the one with an OPEN DISPUTE on your profile, because you did not deliver a product / service, hence, you should maybe think twice before promising people too much. Or.... Advertising your thread with earnings, that you cannot earn (as in, you show youtube earnings, however with your method, you cannot monetize youtube)

Yeah dispute for 5\$ when I was not anymore active on this forum. I refund him on PP long time ago but he never closed the dispute, but you are the god of truth and know everything, sorry bro.

Promising people too much? Where do you see in my title or something that I promise "too much" at your opinion?

You keep repeating same thing again and again. Yes I showed YouTube proof because it's legit and you can trust it since it's has been made with this bot & method, I can show you some crypto earnings (500\$+ in 2 weeks) from this bot & method but you gonna say again that is fake or not related to this. I gonna ask the dev & some customers and add more proofs to maybe make you believe lol. I am tired of that situation to be honest.

AAAAAAAAAAAAAAAAAH You are really a progressive seller, I can see that, when you are talking to a potential customer with:

"I am so fugging tired of retard like you, I am sick. You won't understand I don't give a shit anymore." - Imagine if someone comes and asks for support, after purchasing your software and you would respond to them like this.

Also, it is clear that you are a lazy seller, if you are too lazy to update a sales thread. Like come on now, why would you MISLEAD potential customers with old and outdated software & methods ----> "There is only 1 screenshot which is outdated (payment from yt) because I just didn't edited the thread design" Which you said right here.

If you actual want to earn \$300 from loads of people, then maybe you should try and act like a business, instead of acting like a silly child.

You want to pick a fight, over something that you should have changed, to actually present real proof of earnings for your product.

Because right now, I see 0 proof of earnings, as in actual photo / video evidence. My main core point is, you really suck at business.

Just a friendly reminder to everyone, deal with caution, when people like OP are showing outdated / fake earnings.

Yeah I hope they gonna read that and see what a cunt are you, acting like a kid and ignoring messages just to make me answer you again and again.

I hope you are happy to doing things like that since it's seems to make you feel good lol.

Oh yeah it's fake, everything here is fake you right.

I added 3 payment proof and my channel wuith 300k+ subs which I made based on this sales thread, but NO it's not enough for you.

This is my last post here to answer you, you can say ANYTHING you won't I don't give a shit now, I didn't fake advertise or anything else like that.

Can you now leave ? Thanks.

You are the one faking earnings / showing outdated earnings as in, you cannot earn money that way anymore with your product, yet you decide to keep it as the only source of "Proof of payment" for your method.

So if anything, I am warning the community against a scammer like you.

And now you are cursing at me, dude, you are only digging a bigger hole for yourself, pathetic.

EDIT> Now OP Added some more proof of earnings, but this could be anything, as he panicked and totally admitted that I was right in everything I have stated above, because otherwise OP would not be bothered to change the thread. Hilarious day this is xD
