Design: 7/10 -

Nothing crazy. It is a straight forward design with a legend to guide you to each respective section.

Simple but gets the job done.

Contents: 9/10 -

Goes over the basic steps on how you can actually start e whoring. A lot of guides already assume you know the basics and sometimes you can get lost when they start mentioning certain tools or strategies that basically all the veterans would know but most noobs wouldn't. This guide actually links you to AND explains how to use certain tools that are amazing for e-whoring that I actually haven't seen put into any other beginner ebooks. There are multiple sources linked to certain things to get you started WAY faster than you would on your own. Basically, for what the ebook lacks in visuals is made up multiple times over for all of the links to sources, traffic, and tools. There is also a section on how to automate everything so you put in as little effort as possible. It's just great.

Value: 10/10 -

In the end regardless the most important thing to make money online is putting in effort. If you put in even the slightest effort you are guaranteed to make money. Bluffer has basically spoon fed all of the dozen or so sources to you in this ebook. There are downloadable tools, links to a ton of HQ ewhore packs that are *FREE*, links on where to get traffic.. everything. He doesn't just tell you where to go it literally SHOWS you. Usually I wouldn't value something at a 10/10 but for such a low price you are spending nothing and getting so much knowledge and assistance. You just can't beat it. If you are a beginner this is the only beginner e book you need. Simple.

Good work, Bluffer!

Price-quality comparison:

I think this is pretty good! I would honestly rather see this product sold for something like \$4.99 instead, as there is quite some information inside it that is widely available. But if you got some spare money to spend, then can go for it. In this particular ebook a lot of basic information is told. That being said, in the past many ebooks were sold for well over \$9.99 that contained less words or more common and public methods for that price. So with that in mind, it's well worth it.

Now you might ask yourself if this is worth purchasing if you're a noob at ewhoring. The answer is as following: It could be. If you have nowhere else to start your journey of ewhoring, or want to expand your knowledge as a noob, this is a good basic guide. And there might honestly be different techniques described in this eBook that you wouldn't have find otherwise. This is very valuable since you can get a higher average per customer the more advanced your methods get and the more tips you gather.

Tl;drSo as a startup guide, worth. It also contains some tips for ewhoring that might help you out (it did when I did this hussle).

Goodluck with the sales (& ewhoring of course ;))

Layout: Neat and simply written. No cheeky graphics and animations. i liked how compact the layout was. Something that you want while reading an E-book on anything.

Content: Everything a beginner in Ewhoring needs to know before getting into the game and clearly

outlined within the E-book . Also includes several useful tips and in addition to the traffic sources and the ways to obtain your packs by yourself which is indeed a bonus.

Furthermore, how you could make money from Ewhoring on an automated basis is also explained in the E-book.

Conclusion:

I really recommend this Ebook from my side to anyone who wants to begin E-whoring and don't have any idea on where to start or how to set it up. With this E-book and methods described, any newbie can start doing Ewhoring from the day 1.

Sales on this are now live. I have 4 vouch copies available to reputable members. Knowledge of ewhoring would be appreciated.

Keep in mind this eBook is guided towards newbies, it's like a "start here" guide. \$9.99 makes it a pretty good deal for anyone new to ewhoring.

Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for

each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
