Thread: [What's your favourite time of day?](#)

Koyote - March 3, 2021, 1:00 pm

I always used to be a night owl, but recently I've been waking up early to go for walks and get started for the day, and I've realised I actually really love mornings and being up before most people. I wonder what it says about me as a person. What about you guys?

Doomslayer - March 3, 2021, 1:46 pm

I get up early and I hate it. I feel like im way more productive in the evenings

Is that because of work or naturally waking up early?

Eating time and starbucks time are the best, regardless of when they are.

shakur123 - March 3, 2021, 2:49 pm

Night just before going to sleep is the best time!!

Maxii - March 3, 2021, 3:56 pm

Early morning i would have to say!

Dripstur - March 3, 2021, 6:06 pm

My favorite time is bed time. Very enjoyable time

Grim - March 3, 2021, 6:10 pm

I used to be like that... now I don't feel motivated to do anything at all, all day long.

Nope, in the evening I tend to get more hungry.... regardless of how much I eat at day.

After 9PM. Pre-Covid this was party time every other day and the club was just on the other side of the street.

Now that the club is closed I either play some video games till midnight or have some drinks with my other 2 neighbors cuz we share the same terrace.

Dopamine - March 4, 2021, 3:10 am

Obviously my bed. I wouldn't change this for anything.

My favorite time of the day is 5pm, my favorite day of the week is Friday, my favorite date of the month is 30th and my favorite month of the year is December. ?

I'm the same way. I used to have insomnia and would stay until 3 am and wake up around 8. Now I go to sleep a lot earlier and I wake up at 6:50. That's my favorite time of the day because the sun is just coming up and everything is so quiet and serene. Almost like you can feel the promise of a beautiful new day =D

Deany - March 4, 2021, 7:19 am

Night for me. It's more comfy. I hate the light.

Wow I just checked and now it's like 7am for you. Here it's almost midnight but as much as I love the time between 9PM and 1:30-2:00am I'm hating it for the past month cuz I'm studying for exams and HF is like the only place to relax in between lol.

Yep, 7AM, I woke up an hour ago from neck pain (weird sleep position.. again).

Exams can be a bitch to study for, that's why in my masters degree I only took classes that don't have exams?

I'm thankful to Covid right now (as weird as it sounds) cuz most of my exams are now online which I can do from home + the university gives me unlimited tries instead of the usual 3 to pass the exam (again thanks to Covid), so I signed up for tons of courses and trying to complete as much as I can lol.

Oh wow, you know how to really abuse the situation to your advantage!

Good luck with all your courses

I'm more active at night normally, but my sleep schedule has been messed up for years.

Is there some specific reason that makes you more active at night?

Blogger - March 4, 2021, 4:11 pm

I love that hour before dawn when the world is silent and still. The look of it is beautiful too.

Yanix - March 5, 2021, 1:32 am

Evening is my most favorite part of the day where we can rest well and chill before going to bed :D

zakkary - March 5, 2021, 5:43 am

A lot of people are gonna disagree with me but I like around 3AM (EST), I feel so much more motivated and ready to do anything I set my mind to. As the light starts to shine I feel less motivated.

What time is morning for you? some people consider 8~9 as morning while other take it for 5~6

\$pax - March 5, 2021, 6:09 am

If I wake up anytime between 5 up until 9. I consider myself a legend. But I love the 5am mornings. Earliest this month I woke up was around noon or 1-2 hours to noon.

You might think I sleep late, but infact I still sleep like a cow
