Thread: [Bytes Market section in the Marketplace category](#)

Iconical - March 3, 2021, 7:17 pm

To help encourage users to do other things with Bytes other than gamble I am suggesting a "Bytes Market" section for users to buy/sell/trade things using HF bytes

Grim - March 3, 2021, 10:17 pm

I do remember when there was an awards marketplace for bytes. I don't believe there is any current rule against selling stuff for bytes in the marketplace but to have its own section where we can pay with bytes could be cool!

Saix the Berserker - March 4, 2021, 9:01 am

Do you mean something like selling actual products for bytes or just website related items? Either way that would be really cool.

webdev77 - March 4, 2021, 12:45 pm

I'm not advocating one way or another, just letting you know members are already free to use bytes how they choose to do so. If you want to buy and sell things for bytes, you can.

This might be of interest to you:

Still wanting opinions on this since less than 5 people left their opinion

Having to post in Premium Sellers for byte related sales is a pain since theres a ton more ebooks and non byte related sales flooding the section

ghostboy - March 16, 2021, 9:29 am

I feel as if having a bytes only marketplace section would drive the demand/pricing for bytes? So why not try it out. And/or opening up the awards marketplace, would definitely increase the demand

Options are coming. Please be patient.
