Thread: [Any recommendation of anime that has already finished airing?](#)

severos - March 9, 2021, 3:26 am

I'm not a big fan of watching things that are still airing for a simple reason.... I binge watch, waiting a week for an episode just kills me.

To avoid recommending something I've seen, you can check the ones I've seen on this list:

<https://myanimelist.net/animelist/severos>

Please don't recommend the main stream shit like Naruto or w/e, anything that's more than 50 episodes is 99.999% out of question. Only exception would be something that has barely any fillers, always exciting, and you'd rather shit your pants than take a toilet break from watching (might ask for proof?).

Ideally something that's like 1~2 seasons with total of around 24 episodes.

Comedy, Magic, Mystery categories are my favorite I think.

Here are some random titles I really enjoyed watching to help you understand what I'm looking for (taken from MAL, random scroll):

Acchi Kocchi

Air Gear

Arifureta Shokugyou de Sekai Saikyou

Baka to Test to Shoukanjuu

Darker than Black

Gakusen Toshi Asterisk

Juuni Taisen

Psycho-Pass

To Aru series.

I think it might fit your taste though its only 1 season. Cautious Hero: The Hero Is Overpowered but Overly Cautious.

Its hilarious, only 12 episodes and has a good little twist One of my favorites.

No problem. Show is heavily satire, making fun of isekai but its story and jokes are pretty funny. Some stuff can be cringy to some, but its worth finishing for sure.

Finished half last night as I had to go to bed earlier than usual, really enjoyable, gonna finish it tonight!!

Any other recommendations?

I'm surprised you haven't seen Grand Blue, Majou de Oyasumi, Baccano or Hamefura (Otome Game no Hametsu Flag shika Nai Akuyaku Reijou ni Tensei shiteshimatta...) is the full name, those would be my top recommendations tbh

My other suggestions would be these which all fit your criteria I think

Hinamatsuri
dorohedoro
Nichijou
Higurashi
Serial Experiments Lain
Paranoia Agent
FLCL
Kuchuu Buranko
Mob Psycho 100
One Punch Man
Great Teacher Onizuka
Non Non Biyori
5toubun no hanayome
Daily Lives of Highschool Boys
Watamote
Chaos;head

Black Lagoon/Demon Slayer (maybe not this one but still worth a shot)

Also I'd recommend watching Jojo and Monogatari if you feel like it, I think they're both around 50 eps or over but all of the seasons (12-24 eps) are self contained and you can watch only 1 and get a full story out of it

Darn that is one big list you got there...

I'm considering Monogatari but I'm lost on where to start from. As for Jojo, I think it's overrated, watched an episode and didn't like it at all.

With Monogatari it's best to just watch it in the order it aired. For some reason a bunch of nerds made some different "watch order" lists but if that's how the author wanted the show to be experienced that's the best way to watch it imo. Jojo is pretty overrated but still really good, it's not for everyone though so that's understandable

Something with Haruhi, always watch in airing order.

But I wouldn't say "weird reasons" airing order isn't chronologically accurate.

This is a solid list for sure from Soulmate if you haven't seen a majority of these OP.
Also ill vouch for Black Lagoon that's one of my favorites.

Fate /Zero is a pretty interesting series I'd recommend.

That has been on my PTW list for a while... gotta get it done now.
