Thread: [Realistic 1000\\$ a month method - Limited copies](#)

Levay - March 9, 2021, 4:45 am

Hi,

I am offering a little known grey-hat method. That will make you money providing you put in the work. As stated above you can make up to 1000\$ a month but it is easily scalable.

The set up is relatively easy if you have a basic understanding of setting up simple Web pages. I won't go into too much detail as this method isn't well known and I don't want it to become saturated.

30\$ - just the method.

50\$ - with support from myself.

100\$ - Basic set up w/ support.

150\$ - full set up and support.

Get in touch via hf.
