Could you make a text logo of the brand "CottonFish" it's a brand that sells products to help against Plastic soup. The logo should be pretty minimalistic. Let me know if this is possible will link you as the artist and give you credits on social media.

Any chance you can animate still images?

I tried figuring out how to animate my current profile pic some sorta half-decent way myself (last one was basically a clip turned into gif) but mannnn it was such a pain.

Unfortunately I do not have the skills for this... I am very artistic with the skills I know, but I don't think I'd be able to animate your Profile Pic... Sorry...

Hi, I would like get one made aswell.

I like Evil and Dark, also my main expertise is looking up data of anyone from scratch. (aka doing Lookups and openups)

If you can make something like that for me, i would really appreciated that and hope i will meet your satisfaction aswell.

Signature or Logo?

I might be able to make something cool like a Nuclear Explosion on a Classified Document...

Would this be something you want?

If not you can give me an example of what you're looking for.
