Silentkeys HTTP Panel, This performs like a botnet but doesn't support the number of connections a normal botnet would, Atleast not yet. With LIFETIME membership you will gain access to be able to host on your server. hRDP is only available for lifetime memberships I can also make any custom plugin that you wish to have.

Cant see any pricing. Anyways Good Luck :)

nCuX0 - March 10, 2021, 4:54 pm

what it is coded in ? whats the stub size ?

Can you PM the price for hosting it on my own domain ?

anyway looks really nice, glws

The stub is in VB.NET but im in the middle of rewriting it for C# .

Stub Size is around 50kb may make it smaller, and i do not allow hosting on other servers.

I'll take a trial just to check it out. does the lifetime version come with panel files to set it up on your own host?

once i get done with setting up PHP auth for that then i may. But i mean to get source files i wouldn't be giving for \$55 Maybe little more. It depends. We could work something out.

I will be giving out test accounts tommrow. Also will have auto buy with account names and passwords

The only real logs you see commonly is in http nets so having an individualised web logger can have it's benefits.

If not no worries and GLWS, it looks very nice :)

Im thinking of adding in a Remote Desktop Viewer like you see in normal styled desktop based RATs , Umm really anything that would be cool to add, maybe a miner for XMR Dont know if that will fit the theme, cause its a keylogger- Then i should just rename it to Botnet LOL But yea let me setup a panel for you with a day trail

So hosting the files on my domain is a way to have good customer service, i am allowing files on your own server but it would be a lifetime buy. This is brand new so im trying to work the kinks out.

lemme help you out here. You should license the panel out and simply let people host it on their servers. You'll lose a lot of interest if you're not letting people have the ability to host it on their own servers.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
