Thread: [Free botnet VULN lists! All unique lists!](#)

peachii hxcker - March 11, 2021, 3:03 pm

So since I'm new here I thought I'd give out some vuln lists to add bots to your botnet. These lists come from my personal scanning net (I have a lot of scanners lol)if anyone is interested!

I won't be giving out copies only unique lists to those that ask! For example If I give you a list I won't be giving the same list to another user!

I'll be giving these out by selection so If I don't reply to you it's because I either ran out of lists or decided to skip you ?

Unknown40 - March 11, 2021, 3:43 pm

Hi, can i have list please?

Astonished - March 12, 2021, 3:39 pm

Would be interested if you could hook me up too. Could you also DM me with some information of what these can be useful for? It may sound silly but I don't quite understand what it is you are offering and I just like to learn as much as I can :) Not looking to actually do anything malicious with

it.

If so it's been a while since I've looked for/found recent combos, if you could, sending it would be appreciated, thank you.

Yes these are for ssh/telnet primarily but really you can use them for whatever you want. All from one of my scanners. I'll send you a list now.
