Thread: [Be cautious dealing with LoremIpsum \(uid=4362613\)](#)

**reBELLYus** - March 11, 2021, 3:48 pm

User uid=4362613 added me to Discord talking about purchasing a website and goes through the motions of arranging the deal. As I am about to purchase, he pulls the rug out from under me and refuses to initiate a contract.

He does not understand why the deal couldn't be made offsite. He thought his pixels were going to gain my trust. ?

Anyways, once I told him he is a con-artist, he blocks me from Discord and proceeds to send me some bs reply on here; blocking me before I could respond to his ego-filled private message. It's refreshing to see that kids still live and breathe pixels.

DWC. ?

You sure it was not an imposter?

**Astonished** - March 11, 2021, 3:51 pm

Any chance we could see some screenshots/evidence? I am quite surprised given his reputation. 100% sure you were dealing with the correct guy?

Have you checked the Discord ID against his in the trust scan?

Unfortunate either way.

When you accuse someone you should post proof btw, you didn't post any, this way anyone can accuse anyone

**account\_** - March 11, 2021, 3:56 pm

whats the discord id number? could be an imposter.

OK. Thanks for this great information John. I don't use this forum. I am simply highlighting a ticking time bomb.

All the best.

**Blogger** - March 11, 2021, 4:09 pm

Sounds like an imposter. Anyone offsite refusing to work with a contract is shady as fuck and probably aren't who they say they are. What was his "bs reply on here"? That he had no idea what you were talking about? Also, why aren't you sharing the Discord ID or screenshots? A community alert without proof is just a thread of he say/she say and is completely unnecessary.

**panpeng14** - March 11, 2021, 6:26 pm

contracts are fake, not helping at all. I get scammed here alot of times with "contracts", does not matter the "contract", only the people (99% scammers)

lol They aren't fake. Unfortunately, a virtual contract will not stop a scammer from taking your money. It's up to you to tread carefully.

It's not about the forum, it's common sense in life. Also you do use the forum. You have more contract and time online than me...

He replied to OPs thread, then shortly negged him before this thread was posted. It was Lorem. If it wasn't he would be having a meltdown on this thread right now, anyone remember his thread when he got a boo rating? Yeah...

Isn't this the guy that was farming much B-rating by reselling bytes?

**LoremIpsum** - March 12, 2021, 7:58 am

Pathetic lies.

We talked ON-SITE you lying piece of narcissist.

You needed help with Facebook Ads. You asked for my portfolio (websites?), which I don't have and I told you.

I told you I keep the projects of my previous clients private, as you can imagine why..

After that you replied with, and I quote;

"lol....."

Here's a screenshot of the professional reply you sent me last night.

Done with you, kid. I'll no longer reply to this petty thread.

Shut up.. I exchanged over 2.6M Bytes with little profit as a side-hustle.

I never "was farming much B-rating" you dense MF.

@Everyone,

I will no longer reply to this thread, nor to any comments made on this thread.

If you got a problem with me, or if you need legitimately more information, you can contact me in PRIVATE, ON-SITE!

Yeah that actually does sound like him . Goes off like a psycho then gives you a neg and then sends you messages of abuse or post up videos of him killing your Hackuman lol .. I've had a number of messages with him laughing that he killed my hum . Then blocks you ?

The guy is mentally unstable

Shut up, negative kid.

1. I replied to OP's thread because he asked about FACEBOOK ADS. One of my well experienced skills.
  2. I asked him simple questions, which he replied to by PRIVATE MESSAGE. Nothing got discussed on Discord!
  3. I never did you wrong, so what's up with this patronising disrespect and attitude?
  4. My only 2 negative B-Ratings come from that pathetic guy; Zeus and another member not even worth mentioning..
  5. I negative Popularity Rated him because of his professional reply;
- "lol....."

Go f\*ck yourself. Don't try to act as if I was scamming anybody or acting all weird.

I asked a few simple questions, OP replied to my questions by PM and got a weird attitude after.

WE NEVER TALKED ON DISCORD ABOUT THIS. FALSE FACTS.

Always check my Trust-Scan or check my HackForums VERIFIED Discord.

Btw, here's proof we talked by PM (16 hours ago) and never on Discord.

@OP;

You're too pathetic to waste my time at.

If this is how you treat people who did NOTHING BUT ASKED YOU QUESTIONS ON YOUR OWN THREAD, you should go and f\*ck yourself. For real. I can't deal with these kind of lies and petty behaviour.

Those who got my back, thank you for knowing the 'real me'.

Those who think they can flame and harass me, enjoy your own negativity. Karma will help you soon.

(Mar 11, 2021 04:51 PM)killmenow Wrote: [\[CITE\]](#) Any chance we could see some screenshots/evidence?

Thanks. The fact that OP lacks evidence, nor feels like his claims are enough, says enough.

**SIM-2273342** - March 12, 2021, 8:23 am

Lmao in Lorem's thread that he opened, someone commented agreeing with him and stating that you must've been dealing with an impostor, then Lorem thanked the guy for agreeing with him and

closed the thread so people couldn't reply. Interesting tactic.

**Bear** - March 12, 2021, 8:33 am

lol.....

On serious note, hope you people resolve all issues. Both are nice people on both sides.

**Bullup** - March 12, 2021, 8:41 am

Actually I said I found it odd that OP refused to show proof here, I also stated that I am not involved and it was my outside opinion. How Lorem responds to my opinion is on him. Not sure why you need to make it seem like I'm on his side mate. You can go to the first page of this thread and see me and others asking for evidence that OP refuses to show. I also said on Lorem's thread that I have no negative opinion on EITHER user involved.

Does he need "evidence" of claims when Lorem posts a response blatantly admitting that it was him? He also didn't deny a single allegation? He also left a negative rating and opened his own thread. You don't do all of those things if an interaction didn't occur.

Mind you, this is coming from someone who certainly has had his fair share of interactions with reBELLYus, both good and EXTREMELY BAD. That's life. I don't dislike either party, just looking at things objectively.

Think you might have missed this part: <https://imgur.com/iCkO0nB>

Either way if both users continue to act like this I guess we'll never truly understand what happened,

It would just make things 200% easier if OP could just show the discord ID but at the end of the day... people will act as they wish. Also as you said, just the way things go in the business world unfortunately.

Both of you aren't posting in here in order to resolve the situation. It seems you are driven by pure hostility, you can't express in a mature manner. This thread is pointless.

Lorem's thread <https://hackforums.net/showthread.php?tid=6144213> makes sense to some extent. reBELLYus is refusing to provide proofs, making his claims invalid. That's the end of it.

Lorem, let him be. if he is lying, he's digging his own grave the longer this goes on.
