Thread: [Sell Goldsvet 7.3 MRS \(casino club\) NULLED. SOURCE CODE 7.3](#)

**kseGB** - March 12, 2021, 10:16 pm

A new version of GOLDSVET / mrs system. In this issue you will find new features for managing games and the system, the unification of game banks, a significant increase in performance and a decrease in the load on the server and database. Several new unique interfaces, as well as updating the Laravel Framework to version 8.14.0.

Our casino script:

- 1) has no domain restrictions.
- 2) all games are open source.
- 3) 960 games in total.
- 4) all games work on a computer and on a phone, and have html5 format.

Casino price: 1900 EUR

Why would I trust your nulled script than a reputable seller this is your first post and i'm sure if you searched hard enough you'll be able to find it leaked for free, give some more evidence and make the sales thread abit more appealing anyway GLWS
