Thread: [Bunch of Userbars](#)

Fortunate - March 14, 2021, 9:23 am

Had the pleasure to do some userbars for a client around a year ago. Never published them to HF for feedback.

Even though I made them I still like and dislike some of the userbars and would love to make a lot of changes to them, mostly on the colours, highlighting and shadowing. They would look amazing animated as well.

This was around a year ago and I think I've improved but still have a long way to go. These were all done based on the requests of the client.

The userbars are meant to represent certain ranks, and the higher the rank, the more details you'll get. From bronze to gold, and so on.

I also did the userbar and graphics for the [Celestial Crew](#) a few months back.

Any feedback is appreciated :)

I like the Lion-Cash Userbar. Reminds me of [Vitani](#) groups combined with [mention=4227846] group.
