High quality loads.

100 installs = 15\$

You are selling installs or loads??? It's not clear.

real users, normal infected devices, yes you can use a rat to control them

I also want to fill 100 on the miners. Will it be possible to do this on a miner?

yes but like i said its not worth to buy installs for a miner, you will get low execution rate due to big file size, you will get VERY low hashrate

if you want to use a miner you need to learn how to make unique and fresh installs for yourself buying installs for a miner its literally wasting money

Im trying to understand the setup for a silent mine in general and I read your previous comment but why cant an ETH miner run like the loader Rogue Miner on the installs. Im also guessing how bot shops work is you install the program we provide?

nCuX0 - April 12, 2021, 4:40 am

(Apr 12, 2021 01:54 AM)crynexlive Wrote: [\[CITE\]](#) why cant an ETH miner run like the loader Rogue Miner on the installs.

ETH can only be mined on GPU with over 4GB vRAM, do all the infected devices in the world have GPU with 6GB vRAM and more(6gb because gpu's have usually 3/4/6 GB of VRAM and ETH require more than 4GB, so 6GB is the least)

The answer is no

(Apr 12, 2021 01:54 AM)crynexlive Wrote: [\[CITE\]](#) Im also guessing how bot shops work is you install the program we provide?

i make a download & execute task in my botnet.

yasmangula - August 27, 2021, 9:18 am

I paid 850\$ for HTTP botnet loader license, full setup service from ncux0 with custom plugin and he delivered everything in a timely manner.

I have received all details and full access to VPS, domains, botnet keys, files, fud and original payload with custom plugin.

The seller is very responsive and answered all my questions with 0 complaints.

He was nice enough to set everything up for me with 3 bulletproof domains and gave me 1k bots(i paid for 1k and got 2k).

I was really shocked with how rewarded i have been.

Tested everything, loader and plugin all work flawlessly.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
