Thread: [Nr #1 \[BRAND NAME REMOVED\] methode out there!](#)

!Gambit! - March 18, 2021, 1:35 am

I have a few different methods on how you can get traffic both with manual [BRAND NAME REMOVED] and botting.

I will be selling my knowledge, not in an ebook cus those suck ass, I will be teaching you 1:1 how to get traffic and how to scale it

I'm moving away from [BRAND NAME REMOVED], so why not share what I know

I will be selling it for \$350

4 copies will be sold, then never again! :D

4/4 copies available

0/3 Discounted Vouch copies left

I also used to sell traffic, had a server with over 50+ customers

I will teach you how you can scale the adds.

Have a nice day!

Again, not really sure why you have multiple sales threads, for something that is publicly available? Especially when you go into other peoples sales thread, to trash talk them, meanwhile you are doing the exact same thing, I am charging \$6, however, you are charging \$250, for something you can learn for free online.

GG bud, you really managed to fugg yourself over.

still selling and still working, price reduced to \$200 for the next 2 buyers
