Thread: [Call Center Reps](#)

OSJEK - March 18, 2021, 11:46 am

Hi HF!

I'm looking for a few reps to do call center duties. You will NOT be speaking with your voice making this available to everyone with an internet connection and computer. This is an entry level position, it is using sound boards. You will be clicking buttons on the sound board then transferring to an available agent if the lead has interest or stays on the line.

This is NOT a scam product, this is not ILLEGAL in any way. We are selling LEGITIMATE products and services.

You may bid on this contract with your hourly wage in either PM or Post. Contracts are either 4 or 8 hours a day. Monday-Friday. The people i selected will receive a reply with questions to learn more about you and your fit for this position.

People with experience in this field will be priority. No requirements for age, location, etc. As long as you have a solid internet connection and able to be online for work during us business hours. 8-4PM EST.

I am running a small call center with 12 Computers.

I can do this.

BTW, How many people would you need?

Thank you.

I'm interested, add me on discord and we can talk some more

Thanks for your interest.

This position does require you to bid on your hourly wage, some of the applicants have failed to do so (including you three).

Please PM your desired hourly wage otherwise your post will be ignored, thanks!

Applicants will be picked in the next 2-3 weeks.
