Thread: [99 Range 99 Mage AFK Exploit](#)

Dope. - March 19, 2021, 9:09 am

I've currently came across a strategy in obtaining 120k in Range/Mage XP while afking without the use of malicious bot software. Just got to 85 range 90 mage over night while I slept.

Would anyone be interested in paying for this method? No one else would be doing this except me and anyone I inform.

Does the method require spending any gold? Also how much \$\$\$ would you be looking for in exchange for the method?

SIM-2908357 - March 19, 2021, 9:22 am

Pm me this method, thanks.

Yes to get range and mage XP in game you need to spend gold but with this method your actually not spending anything as it counters each other if that makes any sense. Technically with this method despite expenditures your actually making profit while your sit there and watch youtube videos and what not.

To avoid this exact method getting saturated completely (I can see almost everyone doing this to several accounts therefore changing this method) I'm looking to sell it with all additional knowledge in how to. It's possible to create several accounts and let these accounts sit there and achieve high levels while AFK and actually profiting. Without the use of bots. Have been using this strat for a while although didn't know I can increase range levels whilst.

Does this method involve cannonballs and alching with auto clicker?

SIM-3205632 - March 21, 2021, 9:23 am

Would this work on an ironman?

Sholi - March 21, 2021, 9:46 am

Would you be open to have me test this and then leave a review/vouch for it?

I'd be interested in helping you sell the method.

Graybyte - March 21, 2021, 10:04 pm

I'd buy it if its real. Someone let me know or something.

Jatan - March 22, 2021, 5:06 am

Could you send me the method?

SIM-2501407 - March 22, 2021, 1:11 pm

So you're not using bot software, but you did not say you are not using third-party software. Pretty certain you have to be using an auto-clicker.

Which, in that case, get murgee auto-clicker. Can randomly click between ms and set an area... not unique.

lol I figure I sell this exact set up with my 1 on 1 personal best way to interpret this to get you going. Fairly concise and informative I plea. Could give you easy gains, more competitive, overall better satisfaction in saving you so much fucking time. Although it seems this is taken like a joke and not anyone is serious with any real interesting offers in which you can profit off my collected, cultivated wisdom. Its fairly obvious what this may entail for some osrs players as its in the damn title but consider the set up and longevity of this overall personal strategy/method. I'm pretty much going to be selling some decent accounts for anyone interested in profiting in the duel arena/high risk pking/account training and reselling.

I also have a gambling strategy that also works for me and a few guys that are familiar with the set up. Usually guys at the casinos I visit make a consistent 60 an hour with a the \$128 method usually coming out profitable unless the profits were yolo'd for a loss. A tip not annoying like tick logging but understanding a game of chance in which runescape is RNG based. I back this up with literally being one of the few people to play the Original Runescape in 2001-2006 in which timing in r2h pks granted party hats. Not really trying to waste anyones time here yet alone be a spaz I have better things to do with our time. If I can help you make reliable cleaner funds/save time in training I can see us being business partners for some time. Royalty is loyalty. I am only considering gentlemens/queens.

Excuse me not malicious but saturated* therefore making it risky. My method has no risk and can secure easy gains.

I use garyshood autoclicker and ghost mouse. It can be applied to a bunch of different skills. and (Never banned eight 99s so far)

Combat: Go to NMZ in full DH with XP mobs set-up record yourself 1 tick flicking for 45 seconds then use the autoclicker to restart the ghostmouse program after 45 seconds

Skills: Any bankstanding skill just do the same as above. Record yourself doing an inventory or two of items time how long it takes to complete the script then use the autoclicker to restart the program after the script finishes.

Is this the auto-spell of splashing on Hydra with the normal XP rates as if you actually did any damage?
