First Time This Method Has Gone Public

Only works if you live in US, Australia, and Canada!

I paid for a private ebook with multiple fashion-oriented methods/exploits over a year ago in a whitehat discord server and this is the only one that still works. I've gotten many things I love using this method and I've profited from it as well.

Totally unsaturated, hopefully this leak doesn't make it saturated. I'm likely moving out of the US soon so I guess it doesn't matter to me anyways lmao.

You can make consistent cash using this method by reselling

Funny enough I've even gotten AirPods, a nintendo switch, games, computer monitors, controllers, and many more items using this "fashion" method. So it works for way more than just fashion however fashion is the main way I've made profit using this exploit.

Thx :) Go get yourself \$1 carhartt tees or some extra work shirts or whatever tf you want.

You can even get high fashion for relatively cheap.
