Thread: [Over 1.5 years experience in eWhoring, looking for someone to bring traffic.](#)

Akep - March 21, 2021, 3:45 am

Title says all. I'm a pretty experienced eWhorer and usually can earn over \$1/add. I've been struggling with traffic recently and looking for someone who can push at least 200 adds/day from [BRAND NAME REMOVED]. We split. If you interested, shoot me a pm/start a convo with your Discord. Let's go make some money, can start from tonight.

I don't think your first post should be a request for HF members to give their Discord to you.. for E-Whoring.

I do believe that the member; [SourceCode101](#) could help you out with making some money. He made some nice cash the past few months and it seems as if you could use some help.

I think you got me wrong. I'm not asking for help, I know how this game works. I'm not new on HF either. I made good thousands from eWhoring. Right now I don't have neither the time or resources to run traffic for myself, so that's why I'm looking for someone to bring in the traffic. As a matter of fact, I ran my own team of chatters about a year ago, so no, I'm not asking for help, I'm looking for a partnership. [BRAND NAME REMOVED] is too much of a headache now for me. Get your facts right before jumping to conclusions.

I don't got you wrong.

You need help with traffic, so, I mentioned SourceCode101 for you, as he is a well experienced E-Whoring member who could "help" you with "E-Whoring" in the form of your request for getting (new) traffic.
