Tides - March 21, 2021, 5:02 am

Paypal.

There are ways to use cashapp outside of US/UK. But discussion of that is not allowed here.

Yep, you're correct.

But you don't have many other choices. :(

As a fellow European, but non E-Whoring member, I have to disappoint you.

There is no Cashapp or Venmo-app for us Europeans, regardless of the business you do.

Some people say there is a way around it, with like particular virtual items for purchasing online stuff which isn't allowed to be discussed on this website, combined with VPN and others.

I think you have a better chance making 10 PayPal's (Business or Private) for your E-Whoring, than making 1 redirected-Cashapp account.

Best Legal advice; Don't use any of those and don't E-Whore at all (again; legal advice).

Best HF advice; There is a way around it, but I wouldn't recommend you doing that.

I understand ... So I am condemned to use only the means of payment of onlyfan... fuuu

There's no european app that is like Cashapp/Venmo sadly, PayPal certainly isn't on the same level and the others are just a carbon copy of PayPal so yeah. What I can suggest you is to try and make your customers pay in crypto, make up some excuse as to why you can't accept FIAT. Considerable loss of customers if I use crypto ?

I don't know much about E-Whoring or OF, but I do think that's the best and easiest way for you, yes.

If you got some type of network in the US, you could see if you can make a Contract with someone who will hold the money for you and payout (bi)weekly with PayPal or bank.

Middleman could be an option, but I don't recommend using HF for that, only someone you know in real life or someone who you did business with in the past, as a legal resident of the USA. I'm not sure how E-Whoring would work with that, but I only give legal advice. If you can use OF in any legal way, with real USA models, you could just take a fee or commission per sale / sub.

Waiting for another answer It's not allowed to be discussed on HF.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.
