Etsy Add To Cart & Favorite Service

Gain more sales and earn more money!

What is this?

We will use our accounts to add your listings in our carts! In the same time we will favorite your shop and favorite listings as well!

How does this benefit me?

If you are Etsy seller you already know that add to carts and favorites really matter when it comes to ranking your store high on the search pages.

The more people your listing seem to interest, the more people are going to get interested as well. That's how the system works.

More add to carts and favorites = more views = higher ranking = more sales

Is this safe?

Yes, it is. We are not using your account for anything. We are using our accounts, that we made ourselves, for this service.

We are not buying your listings, we are just adding them to our carts.

We can assure you that we will make sure to be safe with every aspect of the service.

We are using this service on our accounts as well, if we didn't believe in it, we wouldn't sell it.

Can you show me some proofs?

Of course:

This is how your store will look like after our service :)

Price?

Prices vary of quantity of the listings on your profile and quantity of the add to carts and favorites you want us to deliver.

Please contact me and we'll discuss about the pricing.

We accept BTC, ETH, LTC, USDT, PayPal (F&F)

I'd like a vouch copy for my shop at Just Reckless Clothing if it's still available.
