Thread: [Need logo and mascot](#)

Yungversace - March 22, 2021, 10:07 am

Hi,

Need graphics to be made. Will pay from \$10-\$50 (or you may name your price) depending on how good is it, will choose 1 or none from this thread.

Requirement:

context: I am starting a Soft toys brand but it's not exactly a soft toys only brand will include all cute stuff that girls and kids like.

The name is FUSKED, it doesn't have a meaning right now. But I was thinking it could be an activity verb, like once they have purchased from us they are "Fusked" or maybe it's own flagship line of toy such as [this](#) we can call it fusky.

But these are all ideas right now. The goal is to create a brand which is unconventional and so should be it's official mascot.

Mascot should be something unique, if you see it once you cannot get it out of your head. Example: some kind of alien, or 4 nosed dog, or [annoying orange](#). It could be anything.

Both the logo and the mascot should be fairly easy to replicate or print. Please let me know if you want any other info or you want to do it in your terms.

Personal vouch for this guy here, I'm a repeat customer of his & have already vouched on his sales

thread using a completed contract. I highly recommend Motusora :)
