Thread: [Earn crypto watching videos](#)

nniks1999 - March 25, 2021, 6:54 am

If you want to earn crypto by watching videos u can now!

Instead of earning by watching videos u can earn around \$1.6 per reff (currently with crypto price) and instant withdraw that coins.

You can also earn by following people. On beggining u will have like \$1 for free with instand withdraw option on trusted exchange (bittrex since they support that coin)

Also you can follow others and earn extra coins!

If you have huge youtube channel (more than 1k subs) you can earn extra coins!

If you have more thank 100k subs, you can even earn around \$100 or more per month.

Requirement:
