Thread: [How many adds on snap do you guys average per day?](#)

Tides - March 27, 2021, 7:03 am

Recently have been adjusting my methods for traffic and I'm currently doing 100-250 adds to my snap daily. I've had a fair few good days where I've hit 400/500, and would like to see more of that.

What about you guys? How many new adds do you get on your snap per day?

hostileonion - March 27, 2021, 9:37 am

I find when I start hitting 300+/day, I can't handle the workload adequately. Also, snapchat keeps warning me for spam lmao.

senios23 - March 27, 2021, 9:46 am

quality better than quantity of course if you setup a yubo account you will get a lot of adds by the end of the day but if you get like 100-150 adds [BRAND NAME REMOVED] adds per day you are going to be fine

I can generate up to 2400 adds daily but in several accounts, don't wanna spam one account too much.

I was thinking about this earlier too. I'm only driving traffic to one account currently due to a limit with time, however I feel like I could multiply this x5 or so with multiple accounts being used.

eeh its more so about the quality of the adds. id say like 70-100 hq adds daily when I put a little bit of effort

Meow - March 27, 2021, 1:12 pm

100~ targeted leads with more than average conversation rate

It's not about quantity, it's about quality

Can easily grab a few hundred/thousand in a day alone. Just make sure you're avoiding anti-spam measures.
