Thread: [Unable to edit a thread](#)

device - March 27, 2021, 5:52 pm

I am unable to edit this thread: <https://hackforums.net/showthread.php?tid=5791578>

I don't see any reasons why, could someone maybe light my lantern?
Thanks ?

It's going to be to do with the age of the thread. There must be some limits in place for the editing of super old posts.
