So i found a solution if ur payment are being flagged its just cash apps fraud detection being ticket to solve this all you have to do is send one dollar to who ever is gonna send u money so that way they will be in ur contacts after that it wont be flagged anymore:)

its mad sketch doing that though lmao just make a new cashapp so u dont spend extra time explaining to people

jaycash282 - March 30, 2021, 8:13 pm

nah i dont explain much and they do i just ask him hey whats ur cash app ima send u one dollar so u can be in my contacts then u can send heres the thing the cash app i made is only a week old its gonna flag u on what ever cash app u use just not right away maybe after a week or two i get alot of cash 600 a day its all about social engineering i convinced a guy to give me his verified cash app before its just the way u say things

Sounds like too much work tbh, aren't you better off just making a new account?

jaycash282 - March 31, 2021, 8:39 pm

nah it takes these guys do it lol it takes 10 sec

If anything me sending them one dollar has stopped payments from being flagged at all even if u get a new cash app ur payment will always get flagged after a week or so as long as u send that one dollar they will never flag u anymore
