Had some problems with OP first, but that wasn't really his fault. After we managed to solve it, he actually showed me the potential of his crypter.

Bypassed Win Defender like a charm and works on various crypters.

Appreciate it buddy. :) (Mar 17, 2021 02:50 AM)jerempyban Wrote: [\[CITE\]](#) thanks 2 you to only legit guy to help me in the "hackforums" lol more like "banforums" but hey cheers bro (Mar 23, 2021 11:21 AM)alize Wrote: [\[CITE\]](#) the program works fine

Do you mind making a real bypass video ?

Putty can run without a crypter.

Use some tool of the ones stated below.

I have used bitrat payload on scan

kendrick5 - April 1, 2021, 3:25 pm

Hello, please wich RAT can you advise to use for best result ?

If you used bitrat stub , what is that white window popped on on dyncheck ? Bitrat supposed to be visible ? Instead of using screenshots you can pass the direct link.

If you want to make sales you should provide real proofs.

Runtime video will be provided soon when i get free time to make it, the window opened in runtime scan are from windows system and idk what is it but it's not an detection, and they are real scan, will provide soon more informations on runtime scan's videos etc.

(Apr 1, 2021 03:25 PM)kendrick5 Wrote: [\[CITE\]](#) Hello, please wich RAT can you advise to use for best result ?

using bitrat or async without any options on building will increase the runtime to not get detected on process.

Posted new Runtime Video against Windows Defender using AsyncRat as file to be crypted

Sure will hit you up later for live demo showing smartscreen bypass.

Smartscreen bypass isn't only with certs as can be used other techniques to prevent it.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
