Paigham Bot and GSA WEBSITE CONTACT Verified Email List - Almost 10 Million Contact forms Websites

Scraping websites can take a very long time and you would need a very powerful dedicated server to be able to run the software at many threads. I have been using the Paigham Bot contact form submitter on my uber powerful servers for months now. I am running many campaigns at almost 1,000 threads. I have managed to scrape hundreds of thousands/millions of websites.

I have exported the contact form urls that were successfully sent. If you would like to save yourself the time from having to scrape target websites, then this list is ideal for you. I am only using Xevil with this contact form submitter.

I have scraped website contact form urls for hundreds of niches, including:

- ecommerce
- fashion
- cryptocurrency
- finance
- real estate
- oil and gas
- legal
- escort
- adult
- vape
- tobacco
- banking
- SEO and marketing
- software
- casino and gambling
- CBD
- Clothing and apparel
- All types of blogs
- payday loans
- food industry
- entertainment
- MANY MORE NICHES
