Thread: [\[WTS\] Spotify Streams + Royalty Eligible + Upload Service + 2+ Years Running](#)

Xch4ng3 - April 2, 2021, 4:09 pm

I am selling Spotify streams that are eligible for royalty payouts. I have been using my personal method for about 2 years now with zero issues and consistent payouts. None of my songs have been taken down and I have been paid every two months as per Spotify's schedule.

I am also offering a bundled service where you can send me your songs to upload, I set up a new artist and your song goes live within a week. Payouts go directly to you and can get paid via PayPal/direct deposit.

If you don't have a song, we can create one for you along with the artwork.

For those who don't need to upload their songs, all I need is your song link and your stream stats will update within two days.

All streams come from high paying countries so you get the maximum payout possible.

Prices:

3,000 streams - \$10 - Potential payout: \$12
10,000 streams - \$30.00 - Potential payout: \$40
25,000 streams - \$80.00 - Potential payout: \$130

Extras:

Song upload - FREE with any package
Song artwork - FREE with any package
1x song and 1x artwork created for you - \$5

Spotify's payout cycle is calculated every two months, so for songs streamed in January you would receive the payout in March. Keep this in mind.

I accept all crypto, No PayPal. You receive direct payouts from Spotify so no way to take a % on your earnings. Stats updated every two days.

Costs are down per stream but if you buy in bulk for an album/artist/playlist we can work something out
