Thread: [Selling My Amazon KDP Method & Service \(Private Method\) Only i do it.](#)

Hi, I have a service on Nulled where I sell my Amazon KDP service to its members. I grant them a passive income source in the form of ebooks which generate royalties every month. One account generates from \$200-\$2000 a month depending on the no.of books and the amount of time I have invested in them.

I have been doing this service for the last four months, and now I'm sure that this service is not going to be taken down any time soon from Amazon, that's why I'm deciding to sell this service for some instant cash to buy a 6gb graphics card laptop which is on sale in India atm.

Right Now, I'm the only one on EArth who is doing this service atm. So I had a huge advantage but since i need cash i might sell this service to 4-5 people who can do it if i teach them.

The Price will be cheaper around 350\$-\$500 per person. And I'm not selling this service to more than 5 person. I don't want to saturate the market :D

You will have a six month free support and training from me and all the materials/software/resources supplied by me. If you need I can help you get some of the clients too, I've got too many who buy the \$75 pack.

I'm posting the main thread which is live on nulled.

Thanks!

Considering it's in Amazon KDP's rules to terminate with or without malice as they see fit, the amount of money you asking for is too much, especially since it isn't a sure thing with their tempermental nature.
