Thread: [I need a guy for adding telegram members to my group](#)

dvlg - April 5, 2021, 5:29 am

I need a guy that has the power to scrape from other telegram crypto groups and add members to my group. From the group I will redirect members to my telegram channel and my discord server. My telegram channel has already 55k fake members and I added it to all the telegram website boards. Discord server has over 2k members. I do not have the budget that's why I am looking for partnership, but as my partner you are going to make \$\$\$ with me. Dm me if you are interested.
