do you know the Inbox rate?

UnderBot - April 5, 2021, 10:05 am

Not sales trashing when I say this, but what makes this tool unique compared to other mass mailing tools, such as Ultimate Mailer?

TehHaxx - April 5, 2021, 10:43 am

Does this work without an SMTP?

Not currently. I've been considering making an SMTP version.

If theres the option to have an SMTP included with your mailer then that would be awesome.

The next update I do will be adding this functionality. I can't say exactly when I'll do it, but it's a confirmed feature.

Could you please explain that, sounds interesting.
It stops email clients from grouping multiple received emails into one email.

Darkblack - March 20, 2022, 7:48 am

will check this out. Like the spoofing bit
