Whats the average lifetime of these accounts? Risk of being asked to re-verify them with attached phone #? Can I access them with datacenter IPs?

Can you create new Facebook accounts too?

Numbers can be removed as well for custom orders as well as custom recovery emails. PM me if you need more info. Assuming google has no specific ban on the datacenter ip you choose to try with one, there would be no issue.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
