I've listened to his music off and on throughout the years, very powerful messages coming from a man of struggle and hardships. Legend forever... RIP!

DMX was really so big at one time when you see the sales he had. His addiction to crack was obviously hard for him to combat. So many good songs if you listen to his stuff. At least 15 classics.

NicheSurvey - April 12, 2021, 9:29 am

Wow I didn't know that. Sad to hear it tho. Rest in piece DMX

Sad that we lost the most real MC ever in the history of hiphop.
