Thread: [Coding services\[Algorithms, Homeworks, etc..\] \[Java, C++, Typescript, Haskell, React\]](#)

deluxe - April 11, 2021, 12:52 pm

I offer coding services for everyone who are intrested in such. I can code in C++, Java, Javascript, Typescript, NodeJS, SQL, MongoDB, Haskell and React.

About me:

I am studying my masters in Computer Science right now, and could do a few side projects in the side. I have been user on this forum over 10 years, and not here to waste anyone's time.

I will be updating this threads layout to more better looking one later on.

Post here or PM me with your project, and ill price it for you :)
Payments via BTC.

What i am not willing to do:

Anything illegal. This includes (Rats, Keyloggers, Banking related stuff, Phising sites etc...)

Basically, I want a HIGH QUALITY developer (I know they may be rare around here) To develop me a sneaker bot, I have a few websites in mind and we can discuss which would be easiest to implement first. I will be paying for continual updates and this will have big potential if you develop accordingly.

My budget is theoretically unlimited, As long as the bot works as intended, i'm happy paying for it.

You have to be aware that I will be selling keys to this bot and i will be paying you purely to develop the bot, you will not own any of the profits (Unless we come to an agreement of course).

Please PM me if you are interested.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for

each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Hey there,

I've got a job based around <https://marie.js.org/>, I'm happy to privately send you the outline if you think you'd be up for the job. It's not very advanced at all.

Let me know. :)
