Thread: [Want a n RTX 3060,3070,3080,3090 GPU? Click here!](#)

DeJaVu - April 11, 2021, 12:54 pm

I am selling a 1 on 1 class to teach you how to bot GPU's/CPU's or anything that's next to impossible to get right now. You can use this method to pull PS5's, Xbox Series S as well as Pokémon cards if you are into that. You can purchase this class and go into it knowing nothing about botting at all, the goal will be to come out knowing how to bot, secure and flip GPU's. A single 3060 has around \$600 markup if you were to purchase and resell. An RTX 3090 has around an \$1100 markup, meaning every time you purchase a GPU, you will be profiting \$\$\$\$. You will buy the GPU's for MSRP and sell them to snowball your profits. I will show you how to rent the best bots, and what proxies to get and to avoid. Setting up your bot, securing a purchase, amazon account creation with specific settings for faster pulls. I will also give you a list of codes for product ID's to watch for. This will all be available in my class.

This isn't your script kitty bot you can download from some random on github, this is an extremely detailed, in-depth guide on botting using sophisticated bots, techniques, and tricks to create constant income.

GPU/CPU's I have purchased using my method -

EVGA 3090 FTW3 Ultra MSRP: \$1,849.62 | Ebay: \$2,800 (with 9 bids/4 days left)

Asus Tuf RTX 3070 OC MSRP: \$749.99 Ebay: \$1,300 (With 29 bids)

Gigabyte RTX 3060 Gaming (x3) MSRP:\$399.99 Ebay \$890 (16 bids)

AMD 5950x MSRP: \$799 Ebay \$1,025 (12 bids)

Total Profit in 2 weeks \$ 2,997.38

Price \$100 BTC only.

[contract=tid]Start Contract[/contract]

You will earn your money back on your first hit, if you decide to resell.

I am willing to take paypal from trusted users, but I WILL determine if you are trusted or not. (please dont take offense, i've had a few cry babies in my pms already)

I can't 100% guarantee you will nail a gpu the first time running this, but if you give it time and patience you will hit.

Would recommend using a middleman when dealing with this user, considering he's refusing to go first, hasn't made any posts in years and has 0 successful deals made previously.

I would gladly use a middleman :) but after your little temper tantrum in my DM's, you will never receive any services or deals from me.

Good bots sell for roughly \$2-5000, but my guide will show you how to get around that with renting them. (roughly \$5 a day)

Compulsive - April 11, 2021, 11:05 pm

I started a contract, will be learning about this on the 14th, will update later on

Is that bestbuy? You can manual cop on bestbuy due to strict antibot lmao! Most bots dont work. But if you wanna try it twice a month and fail just to wait 2 more weeks be my guest. Also you are restricted to 1 model per address, so good luck jiggling addresses.

Antibot is non-existent on BestBuy, it sells out within seconds. Not restricted by address, there are ways of bypassing that simple research, you should know this :). I can do this everyday, so at least get knowledge of the product you're trying to sell beforehand lol.

Also does not matter what website you use, works finely on all.

GLWS!

Like I said, everyone here has every right to try out your method, and when they get their IP's banned within seconds with your script kitty bot they can come use my method and make money. You posted a picture of a best buy cart, this tells me you know absolutely nothing about botting. You want to know why best buy sells out within seconds? Because its where all the people who cant get a card gather up twice a month to sit there for hours manually waiting for a yellow checkout button lol! Your google chrome extension bot wouldn't secure anything on amazon, I guarantee you that.

SnowreyHS - April 17, 2021, 12:41 pm

Does this method work worldwide? Because many sites don't ship to my country. IF so highly interested.

Ampere - April 24, 2021, 1:44 am

I dont understand what is "Sellable" about this.

Or maybe it is, but the \$100 price tag is far too high.

Ren - April 24, 2021, 10:26 pm

Any success from paid customers?

stargayzer6996 - May 13, 2021, 10:20 pm
