Thanks for this OP!

Quick question, how does it work for UK if it says:

Warning: 1-Year PlayStation Plus Membership (PS+) - PS3/PS4/PS5 Digital Code (USA) cannot be activated in United Kingdom. If you still want to purchase, click "Buy Now".

Search for UK one. it's also available on this same website.

you can always sign up for a free 2nd Playstation account for any supported country like US/UK/CA you want even if your own country is not supported at set that account as a "PRIMARY" in your console and play using your 1st (original) account without any issue.

Can I use a UK IP and switch back to my EU IP afterwards? This would come in handy.

IP doesn't matter in this case but PSN sign up country instead. so make sure you have either US/CA or UK PSN account.
