Thread: [FacelT AC Bypass / ESEA Bypass](#)

maeve - April 13, 2021, 4:55 am

Hey. I'm new here overall and looking for any sort of FacelT AC Bypasses. Esp no aim, esp, aim, etc. Anyone know the best place to look for this? Annoying how most things are scams. I have the budget, just looking for something actually legitimate. I want to be able to see gameplay, in screenshare if needed, etc. Would appreciate any feedback/responses :)

Doing Ekknodz-style of using sensitivity as an aim-assist gives you many options, dont @ me.

ask ekknod if he builds you something cool for Face-IT or ESEA, you can find him on DC or on his forum ---> [ekknod.xyz](#)
