Thread: [\[#1\] Silent Binder | ICON CHANGER | UNLIMITED FILES | CUSTOM STUB |](#)

xZalurex - April 14, 2021, 4:40 pm

This program was built to help people with the problem of binding BATs or EXEs and having them fully deploy without and issues, Silent Binder can bind unlimited files and still have the program execute flawless. Want a custom stub or startup file or even having WD disabled when ran, we can do it! LIFETIME will get you lifetime updates and custom STUB.WD BYPASS ONLY WORKS WHEN FILES ARE CRYPTED. This is not a crypter

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
